

# DURA PRO<sup>®</sup>

**DURA PRO<sup>®</sup> hotmelt adhesives for pocket coil and mattress assembly applications.**

**DURA PRO<sup>®</sup> M-471** is a **NEW** and innovative **FULLY** recyclable adhesive. This hotmelt adhesive can be recycled along with polypropylene non-woven fabric, which is commonly used in mattress manufacturing. This advancement promotes circularity in the production process, making it more sustainable without sacrificing performance. This adhesive outperforms traditional EVA hotmelts by reducing the amount needed and enhancing performance in both high and low temperatures.

➤ **Environmentally responsible**

➤ **Streamlines production with low maintenance**

➤ **Superior bonding strength and quick setting**

➤ **Reduce adhesive waste**

➤ **Exceptional thermal stability**
