Vinyl Decking Adhesive

DURAPRO AM0295 is a contact adhesive formulated for the permanent installation of PVC membranes on exterior-grade plywood; pressure-treated lumber; cured concrete. AM0295 withstands weather conditions from -29°C to 49°C. AM0295 is excellent to bond fleece and fabrics backed PVC membranes to decks, steps, play areas, terrasses and around the pool for residential and light commercial installations.
