## Vinyl Decking Adhesive

DURAPRO AM3275 is a water base latex adhesive formulated for the permanent installation of PVC fleece back membranes on exterior-grade plywood, pressure-treated lumber, cured concrete above grade. AM3275 withstands weather conditions from -29°C to 49°C. AM3275 is excellent to bond fleece and fabrics PVC membranes to decks, steps, play areas, terrasses and around the pool for residential and light commercial installations.
