

DURAPRO[®]

AW3649

Rapid-Set Wood Glue

DURAPRO AW3649 is a high solids content polyvinyl acetate based adhesive characterized by low assembly and press time. DURAPRO AW3649 is used for bonding a wide variety of wood species (except exotic wood) in applications such as composite board, edge banding and surface bonding. Contains a UV tracer for easier viewing with ultraviolet blacklight for removal of excess adhesive. Ideal for flat lamination with cold or hot press.
